

SCHOOL EXHIBIT ATTRACTS MANY

The public school exhibit at Liberty hall at art, domestic science and manual training work done during the past school year by students in the grade and high schools of El Paso, is attracting the notice of El Pasoans interested in such work. The exhibit is an extensive one and including free hand sketches, landscapes, conventional designs from flower motifs and decorative effects done in water colors, crayons or pen-and-ink.

Much of the work is done by pupils averaging eight or nine years of age. The high school poster exhibit includes those entered in the recent poster contest. The exhibit occupies the four sides of the hall and the manual training work is shown on tables placed around the sides of the room.

Annabelle Pirella, a little girl, who dances in New York, danced before the audience at the exhibit Monday night and will dance again tomorrow night. She is staying, together with her parents, with her grandfather, Mr. W. W. Atterberry, of El Paso.

Tomorrow afternoon, the Alamo school will give a program of dancing and choruses and Wednesday night, the Villa and the Morehead schools will present the entertainment. The Moody orchestra will play for the dancing which will follow the program.

The program presented by the Alta Vista school Monday night was a success, judging from the acclamations of admiring parents.

The exhibit will be open tonight and tomorrow and tonight the Any school will present a fairy play and the Lamar school will lend its orchestra to the festivities.

HAD SUFFERED SINCE CHILDHOOD, STATES PORTSMOUTH WOMAN

Weak, Nervous And Discouraged She Was On Verge Of Giving Up—Could Hardly Eat Or Sleep.

SAYS TANLAC MADE WONDERFUL CHANGE

Dyspepsia And Nervousness Things Of The Past And She Feels Splendid Now, States Mrs. Dozier.

"I am so happy over what Tanlac has done for me that I want to talk about it all the time," was the enthusiastic statement a few days ago by Mrs. C. E. Dozier of 1402 Front Street, Portsmouth, Va. "I had suffered from indigestion ever since I was a child, and I have taken medicine nearly all my life, but I was gradually growing worse each year until I began taking Tanlac. I was a confirmed dyspeptic and hardly a day passed that I was free from suffering. Everything I ate seemed to lie heavy on my stomach and I would bloat up with gas something awful. I had the worst sort of pains around my heart and in my left side and at times I didn't think I could hold out under the strain. Even soup caused me to suffer and often I became so nauseated I could not retain a thing I had eaten. I had spells of dizziness and felt like I was going to faint and I would have to sit or lie down until I could recover. My nerves were badly unstrung and at night I was in such misery I could hardly get any sleep at all. My housework became burdensome and I got so weak and worn out I felt like I was ready to give up."

"About three weeks ago I began taking Tanlac and am feeling better than I have in many years, and now for the first time since I was a child I can eat whatever I please and as much as I please without suffering any bad effects. The indigestion has left me altogether and I am no longer troubled with gas, bloating or pains. My nerves are steady and I haven't had an attack of dizziness since I started taking Tanlac. I enjoy perfect rest every night and when I get up in the morning I am feeling so fine I can do my housework without tiring one bit."

Tanlac is sold in El Paso by Kelly and Pollard.—Adv.

Railroad Men To Confer On Deming Rates

Santa Fe, N. M., May 18.—A conference on rate revisions will be held Thursday, between traffic representatives of the El Paso and Southern, the Southern Pacific, the Santa Fe lines, Deming and El Paso jobbers interested, and Hugh H. Williams, chairman of the state corporation commission.

The traffic men will submit a new schedule of rates applying on commodities into Deming as suggested at the recent hearing at which an examination of the interstate commission believes the new schedule will be satisfactory to all shippers. There is no possibility of an increase in rates to El Paso in the adjustment.

country will suffer terribly for our sins."

Senator Edge suggested temporary modification of American immigration laws to permit "an influx of desirable immigrants" to meet "the labor shortage in the United States."

ALLIES LEAVE U. S. OUT IN FIXING FEE PAYMENT

(Continued from page 1.)

raised high hopes in England and kept Lloyd George in power. This election promise is probably the most famous in all history and was vaguely referred to by president Wilson in his conference with the senate foreign relations committee.

Francis Ives opened.

The publication of the sensational book by J. M. Keynes, British financial adviser, who revealed the secrets of the Paris conference, had a tremendous effect on English public opinion, which realized now that the indemnities of the indemnity question had kept and would keep Germany from beginning to earn money to pay her bills. The allies then knew they must accept a much smaller indemnity than they advertised they would collect.

Second, France was another barrier, or rather, premier Clemenceau, who shared the view of a multitude of Frenchmen that Germany should promptly reimburse France before any money should go elsewhere. Clemenceau's ignorance of economics is spoken of by American officials as one of the lamentable obstacles to an earlier agreement on the indemnity question.

Third, the United States got tangled up in party politics and Europe waited hopefully for the ratification of the peace treaty and America's entrance into the league of nations.

E. K. Mill Outside.

All factors now have been removed, except one. England is ready to agree to a fixed sum for the Germans to pay and a method of financing the Germans. France and Italy are in accord with the British viewpoint. The United States alone is outside the conference chamber and the country holds its breath, as Europe has decided that she can wait no longer. If America suffers a result of the settlement, that is her lookout. Europe has had enough of election promises and tangles in the case of England. She doesn't expect a definite policy from America until after our presidential election, certainly not until next March.

(Questionably she will advise the United States of what is going on, but thus far not a syllable of official information has come. For the good reason that America has nobody in the inside of the conference, and until the peace treaty is ratified the United States will continue to be in the outside.—Copyright, 1920, by David Lawrence.)

Omaha, Neb., May 18.—Eight small stores today joined five large establishments which announced reductions of from 20 to 30 percent.

A store which made a 30 percent reduction announced the cut would extend to its restaurant also.

CONVICTED MAN SEEKS HIS RELEASE ON PAUPER'S OATH

Francisco Jimenez, convicted April 7 in United States district court of possession and smuggling of 21 pints of whiskey and 25 quarts of tequila, and fined \$200, remained in jail until Monday because of inability to pay the fine. Monday afternoon he appeared before A. J. W. Schmidt, United States commissioner, and asked that he be allowed to take the pauper's oath. Mr. Schmidt declined to discharge Jimenez and continued the case until this afternoon to allow Jimenez to introduce evidence.
